Introduction

This document lists the **earliest location** for most useful items in the game. It's not a definitive list of every single item location, as that's not really necessary – you don't need to know that there's a free Sun Stone in Mossdeep if you can buy them in Mauville! There are a few things to note:

- TMs are reusable, so each one can only be obtained once.
- Mega Stones are also one of a kind. They have their own bag pocket so you'll always have space for any you find.
- Some competitive items like Choice Specs and Life Orb are also one of a kind, but you'll be able to get more at the Battle Frontier once it's finished.
- Every evolution item can be bought in a mart somewhere. If they can only be bought in a mart, that'll be stated in the list.
- **Wild held items are not listed here**, unless they're the only way to obtain a certain item.

Information on wild held items can be found in the [base stats file](#). Items in this file will be named with underscores instead of spaces and hyphens, and with no special characters. E.g. to find out what holds a King's Rock, you'd search for KINGS_ROCK. ".item1" means that item will be held by that Pokémon 50% of the time, and ".item2" means it will be held 5% of the time.

Bottle Caps

Bottle Caps are needed to change your Pokémon's IVs, so I'll include every location you can find these.

One-time locations

- Abandoned Ship 1F: Hidden in a trashcan
- Aqua Hideout B1F and B2F: Hidden in a trashcan
- Dewford Manor: Hidden in a trashcan
- Fortree City: Reward for beating Spencer – three caps
- Lavaridge Town: Reward for beating Lucy – three caps
- Mossdeep City: Hidden on a rock on the beach north of the city
- Mt. Chimney: Hidden in the trashcan in the cable car station
- Route 109: Hidden on the beach chairs – two caps
- Route 110: Hidden in a clear patch in the grass
- Weather Institute: Reward for beating Shelly – four caps
- Rustboro City: Hidden in the fountain
- Slateport City: Reward for beating Greta – six caps
- Slateport City: Trade Scanner to Captain Stern for twelve caps
- All hidden items that were originally Heart Scales are now Bottle Caps (that's 15 caps)
- Altering Cave: Reward for beating Leaf - 30 caps

Repeatable locations

- Mauville City: Hidden in the trashcans in the Game Corner – two caps that **respawn daily**
- Route 124: trade colored shards at the treasure hunter's house. One shard for one cap. Shards are commonly held by all Pokémon found while diving except for Relicanth.
- Possible reward from the Lottery Corner
- Every Battle Tent: 3 caps for every clear
- Can be found by Pokémon with Pickup (see the **Pickup** section of this document)
- Can be found when using Rock Smash on breakable rocks (please don't try to farm this, the odds aren't good! If you actually get one it's a nice bonus)

That's over **60 Bottle Caps** (including one-time Shard locations) without grinding the repeatable sources or abusing the clock, plus another 30 in the post game. You'll need 30-36 caps to perfect a team of six mons, so hopefully that's enough for you!

Incenses

These can all be purchased at the Slateport Market.

Vitamins

These can all be purchased at the Slateport Market.
